## **AIFMD II Leverage Limits and Single Borrower Exposure Restriction**

AIFMD II[1] introduces substantial changes to the EU-wide regulatory framework for alternative investment fund managers ("AIFMs") that was established under AIFMD. The changes cover a wide range of areas but will have a particularly significant impact on funds that originate loans. Among the new rules on loan origination activities are leverage limits and single borrower exposure limits which are particularly relevant for the use of back-leverage by private credit funds operating in the EU. These new rules will also be relevant for AIFMs in the UK managing credit funds located in the EU.

## **EU Commission Omnibus package**

The European Commission ("the Commission") has adopted a new package of proposals to simplify European Union ("EU") rules, boost competitiveness, and unlock additional investment capacity. The aim of the first Omnibus package is to address overlapping, unnecessary or disproportionate rules that are creating unnecessary burden for EU businesses. It addresses three crucial pieces of legislation over which both industry and Member States have recently expressed serious concerns: The Corporate Sustainability Reporting Directive (CSRD), (EU) 2022/2464 (CSRD) The Corporate Sustainability Due Diligence Directive (CSDDD) ((EU 2024/1760)) and The EU Taxonomy ((EU) 2020/852). This proposal will reduce the complexity of EU requirements for all businesses, notably SMEs and small mid-caps, focus the regulatory framework on the largest companies which are likely to have a bigger impact on the climate and th...
