London Stock Exchange Discussion paper – Shaping the future of AIM

The 'Jewel in the Crown' of London's markets, AIM has been a central feature of UK capital markets for the last 30 years providing growing companies with access to capital and liquidity. Now the London Stock Exchange would like stakeholders to provide feedback on the overall functioning and positioning of AIM along with input on a number of specific proposals for changes to the AIM Rules. Comments are requested by 16 June 2025. After significant reform to the UK Listing Rules, this discussion paper is the next step in getting the UK's capital markets ecosystem 'match fit'. With AIM companies contributing approximately £68bn to the UK economy (more than agriculture, fishing and forestry combined), the importance of this paper cannot be overstated in the context of the UK's growth agenda.

The FCA's updated 'naming and shaming' proposals

The FCA has today published a further consultation paper (CP24/2 (Part 2)) in relation to its 'naming and shaming' proposals (the "Updated Consultation"). The publication follows widespread industry criticism of the FCA's initial proposals published in February 2024 (the "Original Proposal"), and an intense grilling earlier this month of the FCA's Nikhil Rathi and Ashley Alder before the House of Lords Financial Services Regulation Committee over the proposals. The FCA has, as anticipated, significantly watered-down its Original Proposal in the Updated Consultation and has also provided some case studies to demonstrate how its revised proposals might have applied to past investigations. So, what does this all mean and what happens now?
