

BRITTAINY ANNE CAVENDER

Associate

St. Louis

E: brittainy.cavender@bclplaw.com

T: [+1 314 259 2774](tel:+13142592774)

BIOGRAPHY

Brittainy is an associate in the firm's Energy, Environment and Infrastructure practice group. She advises clients on matters regarding the Department of Energy, including drafting self-reports of violations and participating in settlement negotiations. She is also well versed and provides legal advice on Nuclear Regulatory Commission, and Federal Energy Regulatory Commission regulations and guidance.

Brittainy brings a unique perspective to her practice, having worked as an operations research analyst of the U.S. Air Force prior to law school, where she helped develop models to calculate the life cycle cost of USAF weapons systems, analysed USAF capabilities, and determine recruitment and retention needs.

Brittainy received her J.D. from Washington University School of Law in St. Louis and Master of Engineering in Operations Research from the University of Texas. While in law school, Brittainy was the Executive Notes Editor - Washington University Jurisprudence Review, a member of the Dean's Student Advisory Council, the Women's Law Caucus, and Phi Alpha Delta.

PFAS Update: Maine Issues Long-Awaited PFAS In Consumer Products Implementation Rule

In July 2021, Maine enacted a law that requires the disclosure of any product that contains intentionally added PFAS, and eventually prohibits the sale and distribution of any product that contains intentionally added PFAS in the state (the "Law"). In response to feedback from industry groups and impacted entities the Maine Department of Environmental Protection ("MDEP" or "the department") issued a proposed rule on February 14, 2023 (the "Rule") designed to clarify the scope and implementation of the Law. MDEP has scheduled a public hearing in Augusta, Maine, on April 20, 2023, and interested parties must submit public comments by May 19, 2023. If your business is impacted by the proposed rule, you should consider participating in the rulemaking process.
