BIOGRAPHY

Gabrielle is an Associate in the Financial Services Disputes and Investigations team, where she provides strategic advice on a broad range of contentious and non-contentious issues to our clients in the financial services industry.

In terms of her disputes and investigations experience, Gabrielle has acted on white collar crime matters involving various forms of alleged market abuse, including 'spoofing', and alleged mismanagement of liquidity risk. She has also acted on investigations conducted by the Financial Conduct Authority as well as internal whistleblowing investigations.

On the non-contentious side of her practice, Gabrielle provides regulatory support to fund managers, banks and other financial institutions on complex issues such as domestic and cross-

border fund marketing regimes. She also assists clients engaging with regulators and helps them stay ahead of the evolving regulatory landscape in the financial services sector.
