BCLP ADVISES LENDERS ON FINANCING OF OVER €100 MILLION GRANTED TO ENOÉ

Mar 03, 2026

International Law firm BCLP advised the banking syndicate, including Caisse d'Épargne Île-de-France and Arkéa Banque Entreprises et Institutionnels, which acted as arrangers for this financing transaction.

A French renewable energy producer, Enoé, has announced the completion of a financing operation worth over €100 million to support the construction of 71.3 MWp of new photovoltaic projects in France over the period 2026–2027. Co-arranged by Caisse d'Épargne Île-de-France (CEIDF) and Arkéa Banque Entreprises et Institutionnels, with Banque Palatine also acting as lender, the transaction strengthens Enoé's ability to structure and secure Holdco financing, designed to support a diversified portfolio of projects.

The financing will enable the launch of construction of a total portfolio of 71.3 MW and 357 projects, consisting mainly of rooftop photovoltaic power plants (small and medium capacity) and supplemented by the Lesperon ground-mounted power plant (Landes), located on a former sand quarry. The portfolio of approximately 82 GWh/year will benefit 18,000 households, saving 4,250 tons of CO₂ and securing tariffs (S21 / AO CRE), providing visibility on revenues and contributing to the economic stability of the portfolio.

The BCLP team included Partner **David Blondel**, Counsel, **Charles Sechao**, and Associate **Fabien Lambert**, on the financing aspects.
