BIOGRAPHY

Rachel Pearson is a Real Estate Finance lawyer advising lenders, investors and borrowers on complex domestic and cross border property financings. She works across a broad range of asset classes, supporting transactions from acquisition and development financing through to refinancings and structured debt arrangements. Rachel combines strong technical expertise with a commercial, client focused approach, reflecting BCLP's position as a trusted adviser on some of the market's most sophisticated real estate finance matters. Having recently spent time working as a director in the complex commercial real estate team at a major bank, Rachel brings valuable insight into client-side priorities and decision making, strengthening her practical, commercially focused approach since returning to private practice. Prior to that, she worked exclusively in Magic Circle law firms as a real estate finance lawyer.
