BIOGRAPHY

Lynn maintains a multi-disciplinary transactional practice relating to a variety of types of property and industries, with particular emphasis on energy and natural resources law, intellectual property law and finance and lending law. Lynn also counsels clients, from individuals to large corporations, on general commercial and corporate law. The breadth and depth of Lynn's practice allows him to bring unique ideas, concepts and solutions to transactions and business relationships. Since 1978, Lynn has represented clients in virtually all types of transactions, including project development, mergers, acquisitions, financing, alliances, ventures and other commercial transactions.

Lynn's energy and natural resources practice includes project development, mergers, acquisitions and financing, primarily in the oil and gas and mining industries. These matters have involved both producing and nonproducing properties, gas plants, refineries, transportation and gathering systems

and facilities and exploration and production activities. Lynn also is involved in alternative energy projects, including biomass, wind and synthetic fuel.

Lynn's intellectual property law practice emphasizes transactional aspects, not only in connection with energy and natural resources, but also software, computer technology and the Internet as well as a variety of other technologies and processes. Lynn is a registered patent attorney with the United States Patent and Trademark Office.

Lynn has represented banks, borrowers and investors in a variety of lending and other finance transactions, with particular experience in financing involving energy, natural resources and mining.
