BIOGRAPHY

Henry W. Ipsen is of counsel in the Denver office and focuses his practice on environmental and natural resources law. Mr. Ipsen brings over 40 years of strategic and tactical experience in this area, working frequently with clients involved in regulatory enforcement and litigation, Superfund allocation, and complex permitting in both enforcement and transactional deals.

Since 1969, Mr. Ipsen has represented a large number of corporations and an array of municipal and other governmental entities in major federal and state environmental issues. He has extensive experience with federal and state regulatory agencies in the Rocky Mountain region, California, the Midwest and Pacific Northwest.

Prior to coming to the firm, Mr. Ipsen was an Assistant Attorney General representing the State of Washington Department of Ecology and following that was the chief water enforcement attorney in

the U.S. Environmental Protection Agency's Region VIII office in Denver, establishing and directing the Region's water enforcement program under the federal Clean Water Act. He has spoken extensively on Clean Water Act enforcement and has authored numerous articles on that subject.

Mr. Ipsen's abundant experience in regulatory enforcement includes federal and state administrative and judicial enforcement actions under the federal Clean Water Act, Resource Conservation and Recovery Act, Atomic Energy Act, and the Clean Air Act and state counterpart statutes. He has substantial experience litigating CERCLA enforcement, allocation and natural resource damage actions in the federal courts. Mr. Ipsen has been involved in a large number of administrative and judicial appeals of federal and state licensing actions under the Clean Water Act, Atomic Energy Act, Resource Conservation and Recovery Act, and state counterparts.

Mr. Ipsen is currently involved in EPA CERCLA liability investigations including interparty cost allocation/indemnification at the following CERCLA sites: Jasper County, MO; Viburnum Trend Mining Sites, MO; Eagle Mine/Belden Cribbs, CO; Uravan Uranium Site, CO; DePue Site, IL; Thoro Chemical, CO; and Portland Harbor Superfund Site, OR.
