Established in 1873, BCLP's St. Louis office is the firm's largest U.S. office, serving clients across the St. Louis region as well as nationally and internationally. Boasting a long reputation for representing the region's largest companies, we are especially known for guiding clients through multimillion-dollar transactions and cross-border negotiations in the finance, technology and manufacturing industries.

The St. Louis office has lawyers practicing across a broad range of areas, including corporate and commercial law, sports and entertainment, employment and labor, employee benefits, environmental, litigation, real estate, intellectual property and many others. Top legal publications consistently rank our lawyers as leaders in the areas of real estate, mergers and acquisitions, litigation, intellectual property, employment and corporate law.

## COMMUNITY

Our lawyers have built a house for Habitat for Humanity; walked for the March of Dimes (backed by donations); and hosted the Adopt-A-Family program. Initiated more than a decade ago at the suggestion of a staff member, the Adopt-A Family program pairs a needy family with each of the office's nine floors during the holiday season. Employees purchase gifts from the family's wish list, making a large and direct impact on the community.

In addition, St. Louis employees serve on a number of area boards, including the St. Louis Leadership Summit on Diversity; the Regional Commerce and Growth Association of St. Louis; and the boards of area hospitals, colleges and universities. These philanthropic efforts all go a long way toward making BCLP an integral part of St. Louis, and making St. Louis a great place to live and work.

### **Governor Kehoe Signs Repeal of State Paid Sick Leave Law**

On May 14, 2025, the Missouri Legislature repealed the brand new paid sick leave law (the “Sick Leave Law”) that voters approved last November. Governor Kehoe’s July 10, 2025 signature officially enacts that repeal and begins a rollback of the sick leave requirements employers have spent the last few months implementing. The repeal will take full effect on August 28, 2025—ninety days after the close of the regular legislative session.

### **PFAS Air Emissions Restrictions**

When evaluating legal risk relating to per- and polyfluoroalkyl substances (“PFAS”), most businesses typically consider wastewater, groundwater, or soil impacts, not air emissions. However, state and federal regulatory agencies have increasingly considered whether PFAS in air emissions affect the environment, paving the path for future emission controls. This article outlines the legal and policy developments at the state and federal level that relate to PFAS in air emissions to help businesses mitigate risk and anticipate changes that may impact their operations.
