BCLP's Miami office was established in 2014 to serve the needs of clients with business interests in Latin America and Florida. This focus has expanded as the office has grown, and we now assist clients with interests across Florida, the United States and around the world.

The office maintains active commercial real estate and real estate finance practices, including involvement in some of the most exciting new developments in the Miami metro area and nationwide. Our lawyers excel in real estate lending transactions, representing investment firms, banks and other financial institutions in the origination, purchase, sale, syndication and securitization of commercial real estate loans. This includes loan restructuring and workout/foreclosure alternatives for distressed loans.

We represent lenders, borrowers, investors and developers in all aspects of commercial real estate financing. Our experience covers a wide variety of assets, including office, retail, industrial, residential, mixed-use properties, hotels, land development and property portfolios. Additionally, we focus on leasing, land development, planned communities, acquisitions and dispositions.

Our Miami office also has a special concentration in international arbitration and Florida-based litigation. Our lawyers have decades of experience representing multinational companies and sovereign nations in international litigation and transnational arbitration, including complex jurisdictional disputes involving common law and civil law issues.

Our arbitration experience includes disputes under institutions and rules such as ICSID (World Bank), ICC, LCIA, ICDR, DIS and the Hong Kong International Arbitration Centre. We handle matters ranging from investment disputes and sovereign immunity challenges to class actions, unfair trade practice cases, fraud, RICO Act claims and contract disputes.

At BCLP Miami, we combine extensive legal experience with a deep understanding of our clients' businesses, ensuring unparalleled service and Client Intelligent support.

### **PFAS in Consumer Products: State-by-State Regulations**

Manufacturers, distributors, and retailers of consumer products across a broad spectrum of industries are being impacted by state laws regulating the presence of per- and polyfluoroalkyl substances ("PFAS") in their products. This area is rapidly developing as states create new laws or amend existing ones, and the penalties and litigation risks for non-compliance can be significant.
