As the biggest economy in Europe, and one of the most important markets in the world, Germany is a base for major international real estate investors and has strong links to emerging markets, in particular China. Established in 2007, the specialists in our offices in Berlin, Frankfurt and Hamburg provide a crucial link into global capital flows to and from emerging markets allowing us to advise clients investing into and out of Germany.

The multi-disciplinary, internationally focused team has a wealth of experience across the real estate sector, advising investors, banks, developers and corporations on every aspect of cross-border real estate related transactions. We can advise on acquisition structures, joint venture frameworks, repatriation of cash and exits, REITs, private equity transactions, real estate restructurings and mergers and acquisitions. Recent additions to our team have also enabled us to expand our legal services surrounding the finance and tax aspects of large-scale and international real estate transactions.

EMEA- Data Privacy, Digital and AI Round Up 2024/2025

As expected in the data privacy and digital space, 2024 shaped up to be a year full of guidance, consultations, regulatory focus areas and legislative updates. Artificial Intelligence (AI) remained a hot topic with advertising technology (AdTech) closely following its heels. With the blizzard of global data protection developments continuing unabated in 2024 with no doubt more to come in 2025, it is a good moment to look back at what 2024 held for businesses as well as to consider what 2025 may hold in the EMEA region.
