

KENNETH ADDLY

Of Counsel
London

E: kenneth.addly@bclplaw.com

T: [+44 \(0\) 20 3400 4846](tel:+442034004846)

BIOGRAPHY

Kenneth has extensive experience in structuring, negotiating and drafting complex energy infrastructure and service contracts across generation, transmission, distribution and supply.

He regularly advises developers, utilities, contractors and funders on the components required to create robust project income streams ranging from power purchase agreements, contracts for difference, heat offtakes, price setting arrangements and Government subsidy regimes.

Kenneth works in all utility sectors both in and outside the UK and increasingly advises on “behind the meter” energy solutions, energy efficiency schemes and district/community heating projects.

CLIENT STORY

Kenneth advised Osprey Charging, one of the UK's largest and fastest growing public EV charge-point networks, on the [deployment of Transport for London's \(TfL\) first EV rapid charging hub](#). BCLP's solution helped Osprey navigate the complex regulatory, financial, planning and real estate landscape to launch within a very tight timeframe.

Achieving Net Zero – Regulation of District and Communal Heating and Cooling and Impact on the Real Estate Sector

This is our first insight on new regulation that will affect the district/communal heating and cooling sector. It focuses on consumer protection and the impact on building owners/landlords and management companies. Our second insight to be released shortly will focus on the regulations that will affect new property developments and in particular those in "Heat Network Zones". The district/communal heating/cooling sector is to be fully regulated in the UK as from late 2023/early 2024. Consumer protection is at the forefront of the changes. Heat/cooling suppliers (entities contractually obliged to provide heat/cooling) and heat/cooling network operators will need to be "authorised" to carry out those activities. Heat/cooling networks, for the purpose of regulation, will comprise direct heat/cooling networks and communal heat networks. From early/mid 2024 Ofgem will oversee and enforce requirements ...
