STUDENT ACCOMMODATION

OVERVIEW

With higher education having become one of the world's most successful and dynamic industries, the student accommodation sector has grown to become a mature and stable asset class, attractive to both international and domestic real estate investors.

Our multi-disciplinary student accommodation team advises specialist operators, universities, fund managers, equity investors and lenders in the sector. We focus on the entire life-cycle of student accommodation assets and businesses. We regularly advise:

- owners on direct and indirect acquisitions and disposals of portfolios of student accommodation properties;
- on planning, forward-funding, development, management, nominations and letting agreements for universities and owner-operators;
- investment managers on structuring and equity capital raising for joint ventures and open-ended and closed-end funds investing in the sector; and
- lenders to student accommodation platforms and businesses.

We have advised on some of the largest and most high-profile transactions in multiple jurisdictions for market-leading operators, investors and lenders. Our exposure to this sector places us in a unique position in which to add value to our clients.

With a huge influx of students this year, both from the UK and abroad, there is high demand for purpose built student accommodation (PBSA). Yet, while there is a lot of willing capital looking to enter this market, as with everything at the moment, the sector faces challenges in the short to medium term, from rising debt and utility costs, build cost inflation and the ever developing building safety regulations. Providers are also under cost pressure looking to the future to ensure that their portfolios are geared up for net zero by 2030 and some of the decisions that they make now will play a big part in demonstrating their commitment to the green agenda.
