

EDUCATION

OVERVIEW

The UK education sector is extensive, diverse and fast changing. To keep pace, you need constantly to adapt to the demands of the marketplace and political and cultural environment. With our flexible approach and full range of services, we can help.

Our multi-disciplinary Education group has significant experience of working within the education sector, from schools (including work under the Building Schools for the Future programme) to higher and further education bodies for the provision of new educational facilities. We will use this experience to guide you through the challenges that you may face and help you to anticipate and resolve issues that may arise in the delivery of any project or transaction.

Our clients range from schools, higher education institutions, further education colleges, to banks and developers working in this sector.
