

ENDANGERED SPECIES (ESA)

OVERVIEW

Many BCLP clients are affected by the Endangered Species Act (ESA) and our attorneys work with a wide range of clients engaged in projects that require navigation through the ESA on both state-by-state and federal levels. BCLP attorneys forge creative solutions to conflicts relating to land use and endangered species and other wildlife issues, and we are committed to helping clients stake out common ground where all interested parties are satisfied.

RELATED PRACTICE AREAS

- Energy Transition

EXPERIENCE

- Advising clients on obligations, advantages, and disadvantages that arise from entering habitat conservation plans.
- Advising as to whether specific industrial or development activity may result in a take of a protected species.
- Submitting comments on proposed critical habitat designations, including with respect to economic impacts and the technical faults in the designation.
- Analyzing the use of the ESA to legislate regarding climate change.
