

## CAREERS AT BCLP

We are BCLP, a global law firm that is built on the foundations of thinking differently.

Curious and unbound by tradition, we're shaking up the legal space with our ground-breaking thought leadership, market-leading solutions and collaborative culture. We're a distinctly modern law firm that was built to evolve beyond more archaic structures. And as a fully integrated international team, we provide clients with clear, connected legal advice across time zones.

The world is changing, and we need bold and inquisitive minds to help us build the future of our firm. We're at the leading edge of legal technology and innovation, pushing ahead and forging a bold new path in law. If you're ready to challenge the status quo, you'll have the freedom to explore new ideas and the space to grow while drawing inspiration from a diverse range of people, perspectives and interactions.

At Bryan Cave Leighton Paisner we understand the value of an inclusive workforce and we believe people perform at their best when they can truly be themselves at work. We aim to create an environment where all our employees are valued, motivated and able to be themselves. In order to provide the best possible service to our diverse client base, we are committed to recruiting, retaining, rewarding and developing our people with regard to their abilities and contributions and without reference to their background, gender, gender identity or expression, ethnic origin, age, religion, sexual orientation, socio-economic status, political belief, disability or any other protected characteristic.
