

## CLIENT INTELLIGENT

We build lasting relationships that deliver impact. Clients trust us because we invest in real partnerships and work faster and smarter to provide quality advice that supports success. We understand where they need to go and how they can get there.

Connecting the dots between client goals, market dynamics and the law is what we do best. Our one-firm structure, international reach and culture of collaboration ensures clients can access integrated, specialist advice wherever they need it.

Clients say we are close listeners, solution builders and lateral thinkers. That's what it means to be Client Intelligent.

- **Great listeners.** We are law personified – friendly, capable people who inspire confidence and build relationships that last decades. We care about client success and are invested for the long-term.
- **Solution builders.** We are solutions-focused – providing integrated, specialist advice across the world. We collaborate without ego to reach the best outcome for clients.
- **Lateral thinkers.** We go beyond the ordinary – connecting the dots between the law, sector and market dynamics and client goals to deliver quality, commercial advice.
